Energy-Efficient
Scroll Compressor

HIGH-EFFICIENCY AIR CONDITIONER

AVPEC, AVPTC and MBVC | UP TO 23 SEER

Distinguishing features:

Copeland® CoreSense Diagnostics

Constantly monitoring the performance of your NexGen brand air conditioner, this advanced diagnostics system provides insight for accurate troubleshooting and quick diagnosis and repairs. Using the compressor as a sensor, CoreSense Diagnostics delivers active protection and will proactively shut the system down should it detect conditions that could damage to the compressor. As a result, catastrophic failures and extensive, costly repairs are often avoided.

QuietPerformance

You can be assured that your NexGen brand air conditioner will provide you with quiet operation. To minimize operating sounds, we've acoustically engineered our systems with enhancements that include a compressor sound-reduction cover made of high-density foam and a specially designed sound-control top.

Energy Efficiency

Energy efficiency equates to cost savings. Your NexGen brand ASXN4 Air Conditioner offers up to 16 SEER energy efficiency performance. "SEER" stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the cooling efficiency of air conditioners and heat pumps. The higher the SEER, the greater the efficiency—and the lower the operating cost. Compared to lower SEER units found in many homes, a NexGen brand ASXN4 Air Conditioner can provide significant savings on your electric bill.

How the NexGen brand makes your decision easier

The purchase of an indoor comfort system is not one to be taken lightly. However, it's one you can make with an air of confidence when you consider all that distinguishes the venerable NexGen brand.

Comforting craftsmanship

Innovative engineering, world-class manufacturing processes and the relentless drive to ensure each unit lives up to our uncompromising standards — these attributes define the NexGen brand and result in the premium performance homeowners have come to expect from an American legend. Assembled in facilities in Texas, NexGen brand products are built to last.

Confidence-inspiring compressor

With NexGen brand air conditioners, your comfort and savings start with a high-efficiency Copeland® scroll compressor designed to provide years of reliable cooling comfort. Featuring the latest compression technology, overload protection and efficient design, the scroll compressor is complemented by our durable, high-

efficiency condensing coil, which is made with corrugated aluminum fins and refrigeration-grade copper tubing.

The security of the NexGen brand's amazing lifetime warranties*

To truly seal the deal, Nexgen brand indoor comfort systems are backed by industry-leading lifetime warranties*. The majority of our HVAC products are covered by a Lifetime Unit Replacement Warranty*, while all Nexgen brand products feature a 10-Year Parts Lifetime Warranty*. Together these homeowners a level of purchase warranties combine to offer protection that's the stuff of legend.

* Complete warranty details available on www.nexgenairandheat.com. To receive the Lifetime Unit Replacement Warranty (good for as long as you own your home) and 10-Year Parts Lifetime Warranty, in order to qualify for lifetime replacement warranty you need to be part of the X Protection Family. Membership must be current and up-to-date.

The NexGen brand ASXN4 Energy Efficient Air Conditioner advantages:

- ✓ **High-Efficiency Scroll Compressor** – Designed to provide years of reliable cooling comfort, it provides up to 16 SEER cooling performance for lower energy bills compared to lower SEER compressors.
- ✓ **Single-Speed Condenser Fan Motor** – With advanced fan design, it provides dependable, quiet airflow across the condensing coil.
- ✓ **Copeland® CoreSense Diagnostics** – Advanced diagnostics constantly monitor your air conditioner system, reducing failures and pinpointing trouble spots for a fast fix.
- ✓ **Efficient Cooling Capacity** – Five millimeter, refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-410A refrigerant.
- ✓ **Factory-Installed Inline Filter Drier** – Protects the refrigerant system from dirt and moisture for longer service life compared to a unit without a filter drier.
- ✓ **Quiet Operation** – Acoustically engineered, high-density sound control blanket helps to reduce noise levels compared to units without sound blankets for years of quiet comfort.
- ✓ **Heavy-Gauge Galvanized Steel Enclosure with SoundControl Top** – With advanced fan design, it provides dependable, quiet airflow across the condensing coil.

X PROTECTION PLAN AVAILABLE
